

Action Alert on LB295 – Private School Tax Credit Bill Debate Today – 2018 03 22
from Liz Rea, Past Public Policy Chair

LB295, State Senator Lou Ann Linehan's priority bill, is up for debate late this afternoon.

AAUW-NE **strongly opposes** this bill which would take much-needed funding away from Nebraska's K-12 public schools. Nebraska ranks 48th in the country compared with other states when it comes to the amount of state funding for public education. LB295 is a voucher scheme masquerading as a tax credit for wealthy individuals and corporations.

The Nebraska State Education Association (NSEA), a partner organization, also strongly opposes LB295. Please see their information on this bill. You are encouraged to contact your state senator right away urging them to oppose LB295.

Thank you for your attention to this matter.
