

## PRESENTATIONS FOR ADULTS

### **AAUW Research and Tech Savvy**

Parents will learn why AAUW hosts Tech Savvy and explore some of AAUW's research studies. Session also includes recommendations for parents, teachers, and employers in encouraging girls to consider STEM educational and career options.

### **All Gas and No Breaks? Discussing the Myths and Reality of Adolescent Brains**

Parents will discuss neurodevelopment across adolescence while dispelling the myths and acknowledging the realities of the teenage brain. This discussion will focus on the unique teenage brain and how to support your daughter through adolescence and her STEM experiences.

### **College Savvy**

Parents will have the opportunity to visit local college representatives and review some of the programs offered to students.

### **Navigating Life's Financial Journey**

Parents will engage in dialogue with professionals and gain insight into the world of finance, fraud, scams, and related challenges. They will also discover the importance of safeguarding information and planning for expenses through the various states of life – from school dances to retirement.

### **Keynote Speakers: Sarah Wangler and Sarah White, "My College of Engineering Experience"**

*(Adults and daughters attend this session together)*

Each Engineering Ambassador will give a glimpse into life as an engineering student at University of Nebraska-Lincoln. They will talk about their major, extra-curricular activities, and life at the University.
