

HANDS-ON TECH SAVVY CONFERENCE

A day for middle school girls (grades 6-8) and their parents to learn about the educational and career opportunities in STEM (science, technology, engineering, and mathematics) fields. Girls attend exciting hands-on workshops (see below). Parents/adults attend separate sessions on *The Adolescent Brain*, *Financing College*, *Relevant Research*, and also have an opportunity to visit with local college/university representatives.

Who: Girls grades 6-8. Parents and guardians are also encouraged to attend Tech Savvy adult sessions.

What: Hands-on STEM and SAVVY workshops include:

Build a Chair

Forensic Science Black Box

Math Twists and Surprises

Cybersecurity

College Savvy

Lab on Wheels

Wind Turbines

My Awesome Brain

DNA: Blueprint for Life

Robotics

Money and Banking

You Only Have ONE body
